

PAPER PLATE OWL

MATERIALS

3 paper plates
Orange and brown card
Brown paint and marker
Glue or sticky tape
Scissors

- Paint all 3 paper plates brown and leave to dry.
- Once dry, cut one plate in half and stick each half to another paper plate, forming the body and wings of the owl.
- Cut two slits into the top of the third paper plate allowing approximately a quarter of the rim of the plate to be folded forwards to form the ears of the owl. Stick this to the body and wings to make the head.
- Cut two circles and one triangle from the orange card and stick these to the head to make eyes and a beak. Use the marker to add detail.
- Cut two feet from the brown card and stick to the base of the body.
- Enjoy your owl!
